📍 Budapest, Hungary

☆ WordPress, WooCommerce, React, TypeScript, AI

ABOUT

I am a full-stack web developer, interested in developing user-friendly UI experiences, creating clean and readable code and continuous self-improvement both in my professional and personal life. I am using AI coding tools daily (not vibe coding).

EXPERIENCE

Senior Software Engineer

EPAM Systems

📅 01/2025 - Present 📍 Budapest, Remote

Developing headless WordPress and React based webapplications in an AWS cloud environment.

Working with shared Block and React component libraries (monorepo)

WP-CLI script development – automatized deployment across multiple environments

Contractor Developer

Multiple

📅 01/2024 - 01/2025 📍 Remote

Developing React webapplications and WooCommerce webshops, plus smaller projects with Next.js, Angular, Lit (React)

Senior Fullstack Developer

Swiss Tomato SÁRL

📅 01/2017 - 01/2024 📍 Remote

Creating WordPress sites and webshop with classic approach (ACF fields and blocks) and headless interactivity.

Building TypeScript and React web applications with Redux, Context API, Formik and PrimeReact.

Creating specifications and project estimations.

Fullstack Developer

Sysform Kft, Kensai Kft.

📅 12/2013 - 05/2016 📍 Budapest, Hungary

Creating ASP.NET and SharePoint projects with C#, Razor, JS, jQuery and Less – I was responsible mainly for the frontend (Razor cshtml, JavaScript, jQuery, Less).

Web Developer

Lombiq Technologies Ltd.

📅 05/2013 - 11/2013 📍 Budapest, Hungary

Creating web solutions with Orchard CMS (C#) and AngularJs.

Web Developer Intern

Nokia Solutions & Networks Kft.

📅 03/2013 - 06/2013 📍 Budapest, Hungary

Developing an internal issue tracking tool with CakePHP, jQuery and CSS.

EXPERIENCE (SUMMARY)

⚙️ Customized WP websites (with theme and plugin development)

☁️ Headless WordPress setup

📱 React web and mobile applications
